

North America

ITR offers a wide range of undercarriage components for Crawlers and Excavators manufactured by Cat, CNH, Deere, Hitachi, Komatsu and many more.

Segments

ITR is one of the World's Leading Manufacturer of Sprocket Segments

Produced in our state of the art manufacturing facility, ITR segments are forged using the finest Alloy Forging Steels, machined to exacting tolerances and heat treated to provide excellent wear and strength characteristics.

Sprockets

ITR offers an extensive product line of Sprockets for Crawlers and Excavators

Sprockets are Cast using specific steel material blends for abrasion resistance and strength, machined for proper fit and heat treated to provide long term durability.
